Peruvian Guano Substitute!

BAUGH'S
RAW BONE
SUPER-PHOSPHATE OF LIME.

TRADE MARK

BAUGH & SONS,
Sole Proprietors and Manufacturers,
Delaware River Chemical Works,
PHILADELPHIA, U. S. A.

For WHEAT, RYE, BARLEY, CORN, OATS, POTATOES, TOBACCO, BUCKWHEAT, SORGHUM, TURNIPS, HOPS, GARDEN VEGETABLES, and every Crop and Plant.

Especially recommended to growers of STRAWBERRIES, RASPBERRIES, BLACKBERRIES, and all SMALL FRUITS.

More than 13 years of regular use upon all descriptions of Crops grown in the Middle and Southern States, has given a high degree of popularity to this MANURE, which places its application now entirely beyond a mere experiment.

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME is eminently a success as a Substitute for Peruvian Guano and Stable Manure—and is offered to the Agriculturists of the Northern and Eastern States as a *fertilizer that will cheaply restore to the Soil,* those essentials which have been drained from it by constant cropping and light manuring.

IT is very prompt in its action—is lasting in effect to a degree unattained by any commercial manure in the market, and is afforded at a much less cost than *bought* Stable Manure, or Peruvian Guano. The Labor involved in its use is far less than that of applying stable manure, while there is *no risk* from the introduction of noxious weeds.

☞Farmers are recommended to purchase of the dealer located in their neighborhood. In sections where no dealer is yet established, the Phosphate may be procured directly from the undersigned. A Priced Circular will be sent to all who apply.

Our NEW PAMPHLET, *"How to Maintain the Fertility of American Farms,"*—90 pages, giving full information in regard to the use of manure, &c., will be furnished gratis on application.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY
FOR IRREGULARITIES!

I have tested these Drops in my own practice, over ten years, and do not hesitate to say, *that nothing has yet been developed by* medical research, that acts so powerfully, positively, and harmlessly, in cases of female irregularity, as does this medicine. In all recent cases it never fails, while thousands who have been long sufferers, are indebted to it for the boon of health to-day.

Although so powerful and positive, they are perfectly harmless, and may be used at all times, except when specially forbidden in the directions.

They have been extensively employed by eminent physicians in France and England, as well as in my own practice, over ten years, and I have yet to hear of *the first instance of* failure. I could give you testimonials of their efficacy from all over the northern and western States, were they not in their nature private. Over 100,000 bottles have been sold the past year, and I hope and trust as many sufferers have been benefitted. "I am well aware that a remedy so potent to remove all obstructions, may be used for a bad purpose, but trust that where one bottle is thus used, it may fall into the hands of really needy sufferers.

To all who suffer from any irregularity; painful, difficult, excessive, offensive or obstructed Menstruation, Leucorrhea, or the train of diseases that follow, I would say, try a bottle of DR. LYON'S FRENCH PERIODICAL DROPS. Being a fluid preparation, their action is more direct and positive than any pills or powders. Explicit directions, bearing my fac simile, accompany each bottle.

They may be obtained of nearly every druggist in the country, or by enclosing the price to *C. G. CLARK & CO., New Haven, Conn.,* General Agents for the United States and Canada.

Selected Poetry.

THE GRAVES OF A HOUSEHOLD.

They grew in beauty side by side,
They filled one home with glee;
Their graves are scattered far and wide,
By mount, and stream, and sea.

The same fond mother bent at night
O'er each fair sleeping brow:
She had each folded flower in sight;
Where are those dreamers now?

One midst the forests of the West,
By a dark stream is laid—
The Indian knows his place of rest,
Far in the cedar shade.

The sea, the blue lone sea hath one,
He lies where pearls lie deep—
He was the loved of all, yet none
O'er his low bed may weep.

And one—o'er her the myrtle showers,
Its leaves by soft winds fanned;
She faded midst Italian flowers,
The last of that bright band.

And parted thus they rest who played
Beneath the same green tree;
Whose voices mingled as they prayed
Around one parent knee!

They that with smiles lit up the hall,
And cheered with songs the hearth,
Alas! for love if thou wert all,
And nought beyond, oh earth!

Agricultural & Domestic.

ROAD MAKING.

The following hints upon this subject we find worthy of consideration; and as in the Spring much time is devoted to repairing and making roads, we give them for the benefit of farmers and others:

"In road-making, one great requsite is the ready and total removal of the water. There cannot be a good road where water stands by the side of it or on it. If the ditches have no ready outlet, the road bed will soak up the moisture more or less by capillary attraction, and thus remain rutted and muddy. It is vain to think of having a good road on a subsoil filled with stagnant water. Even on side hills, if water remains on the upper side, it will injure the road by passing under. Provide then, if possible, for the thorough drainage of your roads, either by surface or covered ditches. See that the road-bed is evenly and slightly rounded, so that the water can readily find its way to the drains. If the soil is clayey or loamy, give it a few inches of gravel, or even coarse sand, and you will have a fine and pleasant passage-way. If the soil is sandy, it needs an addition of clay to correct it, *and this will correct it so that good roads* may be had over the lightest sandy soils."

PLASTER ON CORN.

D. D. Newton, Cooper, Mich., sends us this record of an experiment:—"On the 13th of last June I sowed six bushels of plaster on two-thirds of nine acres of corn, putting a handful on each hill in sixteen rows, and skipping eight. The corn was cut up in September, putting eight rows in a row of shocks. The rows were all alike, being forty rods long; the rows plastered yielded from three to six bushels of ears more than those unplastered, and the corn was sounder. I shall try the same experiment again this year. The corn was planted on a heavy clover sod, and the soil was very wet at the time the plaster was put on."

SPROUTS AND EYES.—The root of the potato sprout or eye extends to the center of the tuber. Sever the sprout or eye from its root, and you lessen its vigor. In proof of this, pare off the outside of the potato to the depth of one eight of an inch, and the inside, if planted, will commonly grow, but it will grow feebly. Plant the paring, and it will grow feebly, just in proportion to its thinness. Cut a potato as you will, the smaller the piece, the more feebly it will grow. As to planting small potatoes, it is contrary to all analogy. When farmers winnowed their wheat in the wind, they kept the but of the heap for seed. Gardeners always prefer the middle head of the parsnip for seed. Thus with all kinds of seeds; the largest, most perfect and best ripened are always preferred.—*New England Farmer.*

MANURE SHOULD BE WELL MIXED WITH THE SOIL.—Prof. Way, in his lectures before the Royal Agricultural Society of England, said his experiments showed that the soil was no idle spectator of what took place in it; that it was not a mere meeting place for the roots of plants and the food they were to grow upon, but that it was actually the stomach of the plant. Or he might go further, and say that nature had actually given to the soil the function and office which in animals is performed by gastric juice and the chyle—that of preparing and digesting the food of plants. This is perhaps somewhat fanciful, but that it is very advantageous to thoroughly incorporate manure with the soil, no observing farmer can doubt.

CURES FOR POLL EVIL.—J. E. Cole, Steuben Co., N. Y., says he never failed to cure poll evil by first "washing the sore clean with warm soap suds, and then sprinkling on a teaspoonful of saleratus once a day until a cure is effected, which will be speedy."

L. P. W., Troy, Pa., says, "take four quarts of mandrake roots, boil them in water to get a strong decoction, then add one pint of hogs' lard and simmer it down to a salve. This is rubbed on once a day and heated in with a warm shovel. I have tried it for twenty years and never knew it to fail."—*Rural New Yorker.*

STARCH IN POTATOES.—Dr. Nessler, of the Duchy of Baden, has shown by analysis that the nutritive value of potatoes varies with their size, and in favor of increased bulk. Potatoes about two inches in diameter contain 17-2 per cent. of starch, and those about the size of walnuts 14 6 per cent. We infer that full growth is necessary to full development of starch.

POINTS IN A GOOD MILKER.—A correspondent in the Country Gentleman says: "In selecting a milker, look well to the udder. Before milking it should be wide and broad, not hanging down like a sack; and hard and shiny, nearly destitute of hair, and what there is should be fine, short and bright. After milking, the udder should be soft, and apparently a skin bag. If, after milking, the udder is hard and full, it shows that it is flesh, not milk, that distends it."

Choice Miscellany.

LAPSING INTO BARBARISM.

A writer in the New York *Times*—a Bureau agent we infer—describes the condition of the negroes who inhabit the once rich and productive Sea Islands, on the coast of S. Carolina. It is plain that the negroes are falling back rapidly to the condition of their African forefathers. The almost brute condition which Du Chaillu and Livingstone observed among the heathen natives of Africa will probably soon characterize a large portion of "the American citizens of African descent." The correspondent of the *Times* says: "The greatest fears are to be entertained by every thoughtful person concerning the future condition of these Sea Island people. * * * I am living with my family on a plantation among them, where I have lived for the last four years." The writer then goes on to describe a condition of immorality and licentiousness which we do not care to exhibit in our columns. He adds: "It was not so when I first came here. This fearful condition was brought about by Union officers and soldiers. No persons were so who were under my supervision, because I was careful to keep them away from Beaufort and from camps. Husbands and wives are constantly returning to their forufer companions, to find them in new relations of long standing, and with new sets of children. * * * Divorces are granted by permission of church authorities, composed entirely of blacks. * * * Under the Freedmen's Bureau there is no practical system of divorce adopted—at least not here. Persons legally married separate at will, and again marry other parties in all the forms of law. Persons by the score live together 'just so' without any form of marriage. These people * * * have recently attained to full civil rights, and will rapidly become independent and defiant, in their way of thinking and acting, and so will soon be beyond the reach of all restraining influences to rot in their own corruption."

HE WADED.

It was election day, and Grimes, having assisted on the occasion by the deposit of his vote and absorption of about as much old rye as he could walk under, started with two of his neighbors, who were in the same state of elevation, to cross the Brandywine Creek by a footbridge constructed of a single log thrown across, and hewn flat on the upper side, but without any hand-rail to aid in the transit. There would have been no difficulty with a clear head and steady legs in crossing; but with our party it was felt to be not devoid of difficulties "under existing circumstances." However, the creek must be crossed. Grimes' two friends took the lead, and with much swinging of arms and contortion of body reached the farther side. It was now Grimes' turn to face the music, and, making a bold start, he succeeded in getting about one-third of the way over, when a loud splash announced to his friends that he was overboard. Emerging from the water, it being about up to his breast, he quietly said, as if his course was the result of mature deliberation, "I guess I'll wade!"

Faith.—A negro in Massachusetts lately gave his idea of faith in God's promises in the following words: "Dar is a brick wall, and de Lord he stand dar and say to me: 'Now, I want you to go troo dat.' I ain't a going to say, 'Lord, I can't.' I got nuffin to do about it. All I hav to do is to butt against it, and it's de Lord's business to put me troo."

I care not how humble and unpretending the gazette which he takes, it is next to impossible to fill it without putting into it something that is worth the subscription price."

☞Geary is an expensive luxury. The Legislature has appropriated $500 for an artist to paint his portrait, and $15,000 to enlarge his house, to enable his Excellency to spread himself at his receptions. He wanted $5,000 for a private contingent fund, which the Legislature had the sense to refuse.

THE TAX ON REAL ESTATE.

Last year the Radicals abolished the tax on real estate in Pennsylvania, and this legislative feat was heralded as a magnificent achievement. Radical newspapers congratulated the farmers of the State thereupon, and assured them that this was only a small sample of what would eventually be done for them. Under such economical administration of the State Government as characterized Democratic rule, this reduction of the revenue might not have been found detrimental to the financial interests of the State. We could have got along without it. But not so under the present regime. The late corrupt Radical Legislature appropriated more money than could possibly be furnished by existing rates of taxation. Even after they had imposed a heavy tax on coal and other resources of the State, it was found that there would be a deficiency. What was to be done? It would not do to restore the tax on real estate, just after repealing it with such a grand flourish of trumpets; and yet the money must be had to pay extra salaries to members of the legislature, to support a small army of dependants about the two Houses, to furnish stealings for petty officials, to pay extraordinary prices for a portrait of his Majesty, John W. Geary, to enlarge the Executive Mansion, to keep up a useless agency at Washington, to provide for the maintenance of a standing army to menace the foreigners and the Catholics of the mining regions, and for a multitude of other extraordinary and improper purposes.

Radical ingenuity has never yet been at a loss for a device, when an opportunity for plundering either the State or the National Treasury was presented. They did not restore the tax on real estate, in express terms and in manner and form as once levied and collected, but they did what amounted to precisely the same thing. They passed a law requiring the Commissioners of the several counties to levy, collect and pay into the State Treasury an additional sum of $300,000; the precise amount formerly derived from the tax on real estate. Of course the farmers know why the county tax, which is to be thus increased. It is notorious that the rural districts pay more than a proportionate share of it. This is another specimen of the wisdom and the fairness of Radical legislation. How much longer will the masses of Pennsylvania allow themselves to be made the dupes of such a set of corrupt political tricksters?—*Lancaster Intelligencer.*

PETTY PILFERING.

Almost every newspaper in the State, without exception as to party, has denounced the wholesale stealing done by the Radical majority of the recent Legislature. The Harrisburg *Patriot & Union* gives an account of the petty pilfering carried on under the auspices of that body. It shows a condition of affairs which is most disgraceful, but the account is unquestionably true in all respects. The *Patriot* says:

We understand that all the nice rugs, mats, and other portable accessaries in and around the legislative halls have already disapeared. This, we are told, is the regular order of things after every adjournment of the legislature. At the next meeting the halls, committee rooms &c., will require to be completely refurnished, in these respects, at a cost of many thousand dollars. It is a singular fact, that, since the Radicals came into power, the public buildings and offices are annually refitted and refurnished, at a heavy cost to the State, and yet there has never been a sale—public or private—so far as the audited reports show, of surplus furnishings. Hundreds of desks, tables, chairs, &c., and thousands of yards of costly carpets, oilcloths, matting,

VARIOUS ITEMS.

— Seventy-five woman were recently seen in Calhoun, Gordon county, Georgia, who had walked ten miles for food for their starving children.

— It is said that the "loyal league" of Philadelphia has driven Southern trade entirely away from that city, by its insane and inhuman course towards the Southern people.

— At the late charter election in Little Falls, N. Y., the Democrats elected their ticket by a majority of 154. This is the first time that the Democrats have gained a victory in Little Falls in 14 years, and the event, therefore causes no little rejoicing among the tried and true defenders of Democratic principles.

— St. Anthony, Minnesota, goes Democratic with a gain; so does Red Wing city, with a gain of 211; so does Mankato, also with gains. The Northwest is getting out of the darkness of the Radical wilderness.

— The Boston *Post* says we no longer hear about the necessity of the last dollar being given to support the Government. People are not so fond of taxation as they were.

— The *Tribune* says that "negro emancipation is still the main issue." Yes, on the Mongrel side, and on the Democratic side *white emancipation* is the issue.

— Georgia correspondent says he lately saw scores of white women in the fields of Georgia, Tennessee and Virginia, toiling for bread. Nowhere did he see negro women, who, though poor as the whites, seem to have got above work.

— The Northerners who are now overrunning the South instructing the negroes how to vote belong to a class who took good care, during the war, to keep far enough away from Dixie. The real fighting men of the war have no sympathy with that class of "patriots."

— A. W. Benedict, late Clerk of the House at Harrisburg, died at Huntington, yesterday morning week, of erysipelas.

— The State Controller of New York announces officially that the Legislature, just adjourned, has increased the rate of taxation from four to seven dollars on the hundred of valuation for the current year. If property in New York is rated at anything near its true value, the tax is more than the property can be made to earn. How much longer will sensible men support this party.

☞ The Great Powers seem determined that war shall not take place between France and Prussia on the Luxemburg question. Queen Victoria has proposed a Congress of European powers to be held in London for the purpose of adjusting matters on a basis of a neutralization of the Duchy, and it is stated that both France and Prussia have agreed to the meeting and the proposition. The arrangement of the details, however, will be attended with some difficulty, as both Napoleon and Bismarck will be anxious to get the best of the bargain. The English movement, while it does not make war an impossibility, is well calculated to heal the breach between France and Prussia, or, at least, allow them an opportunity to occupy other grounds on the vexed and disputed issue. The meeting of Congress is fixed for May, and it is likely all the Great Powers will be represented.

The New York Election.—The New York *Times*, Republican, speaks as follows of the recent election for delegates to a Constitutional Convention in that State:

The election returns show clearly enough that the Democrats made no effort to carry the constitutional convention. They were more than willing that it should be in the hands of the Republican party. No party ever yet made itself any *stronger* by taking the responsibility of a new constitution upon its shoulders, no matter how good it may be; but it is quite possible that one *may* be made so certain to encounter public hostility as to strengthen the party which takes ground against it at the polls. This chance the Democrats have reserved for themselves; while the Republicans, as the party which makes it, are committed in advance to the support of *any* constitution which may be framed. On a party point of view the Democrats have clearly the strongest position.

The Good Time Coming.—The Washington *Intelligencer* in a leading editorial says.—"The result in Connecticut indicates a reaction against the Radicals, which will carry New York, Pennsylvania, New Jersey, Tennessee and Oregon; that these States, with Connecticut, Deleware, Maryland, and Kentucky, will give the conservatives one hundred and six votes in the next Electoral College at least, against one hundred and forty-one for the Radicals. It thinks California, Nevada, Nebraska, New Hampshire, and possibly Indiana, may also be carried against the Radicals by judicious management, which would give the next Presidency to the conservatives, even if the Southern States are not allowed to vote."

☞ The following picture of the Radical party is from the pencil of Rev. Henry Ward Beecher. The likeness is striking:

The men at Washington and Albany sold their country; they sold their humanity and their honor, and the trusts that were put upon them by their constituents. They were debauchers of the young; they were the traitors; they that lifted the sword were not half so much traitors; they that despoiled the old banner and trod it under foot; *they that fired upon the government of the United States were not so much traitors as were those vermin* who were crawling under the foundations and destroying by corruption the vital power of the government.

☞ Well may the whilom leader of the Destructives, looking at the signs of the times, pronounce his "the doomed party." Whom the gods would destroy they first make mad; and this is as true of parties as individuals. All the signs indicate that the day of judgment has come for crazy Radicalism. Its leaders see it. Like tenants whose lease is about to expire, they are wasting and pillaging the premises they will be forced to quit. It is "a doomed party."

☞ The New York *Tribune* thinks the tenure of office bill will have to be repealed, as it is creating inextricable confusion, and retarding the business of Government. The same may be said of almost all the Radical legislation, which is made up of mere crazy whims and erudities.

☞ The colored men's organ of Charleston, South Carolina, denounces Northern adventurers.

WHAT HAS BEEN GAINED.

Whatever other charges may be laid at our doors, it cannot be truthfully denied that during the long series of years in which the Federal authority was administered by Democratic hands, the Constitution, laws, and rights of the people were sacredly respected. The burdens and blessings occasioned by government were equally distributed, and the people were prosperous and happy. A change was demanded by the Republicans, on the ground that they would multiply these blessings and increase our happiness. What has been the result? Have the Constitution and laws been better obeyed, the rights of the people more respected, or the burdens and blessings more equally distributed, or the people made more prosperous and happy? Although many have been made rich under government contracts, have the masses, who provide the money, in any degree profited by the change? It is true that slavery has been abolished, and it is also true, that one-third of the slaves themselves have been abolished, and are dead and gone. But this abolition of slavery, thus made legal and binding, was the work of the slave States, as such, and not that of the Republicans. They voted for this, as one means of atoning, for the sin of their rebellion, one of the natural fruits of the principles avowed by the Republicans when they came in power. They designedly provoked, and brought on the rebellion, which the Democracy equally assisted in putting down, while the Republicans reaped rich harvests out of it, though the history of their unexampled extravagance is now fully admitted, and we have an acknowledged national debt of about $3,000,000,000, and there are outstanding claims to near the same amount which time will ripen and compel us to acknowledge and pay. No one now living will see these debts all paid. Are these obligations a blessing?

In Mr. Buchanan's time our yearly expenses were about $80,000,000. They are now, in time of peace, near or quite $200,000,000 for ordinary expenses, and over $180,000,000 for interest money, mostly paid in gold, which is always at a large premium over the irredeemable paper which the Republicans brought into existence. Our present annual expenses thus run up to about $380,000,000. Is this a public blessing? Everything is so taxed that we are compelled to pay double prices. Are the consumers benefitted by this? The Republicans have more than doubled the pay of Congressmen; have nearly doubled the number of public officers, and almost doubled their compensation. Is this advantageous to the people? Do they profit by the Congressional traveling committees and extra sessions? Are public officers more vigilant and energetic? Do they steal and cheat less? Has it increased the happiness of the people to deprive the States of their authority to control the right of suffrage, of erecting and controlling the moneyed corporations within their borders, and seeking justice at the hands of their own Judiciary? They have extinguished ten States, and subjected them to the will of military power, and the civil authorities of the States have been forced, in some cases, to yield to the dictation of the bayonets, thus stripping them of all their rights and privileges. Does this make the people more prosperous and happy? What constitutional power is left free to the States? Who can tell when Pennsylvania, equally liable to be brought into subjection, may become a victim to this rule of usurpation and hatred? Are our citizens prepared tamely to submit? Will any sane man pretend that the people of the Union are made more prosperous and happy by the ascendency of Republicanism.—*Erie Observer.*

Radical Stampede on the Ohio Negro-Suffrage Amendment.

The negro-suffrage giving and white disfranchising amendment proposed to the people of Ohio by the Radical Legislature meets with unexpected opposition in various parts of that State. The latest, and not the least, of these surprises to the party leaders comes from the Cincinnati *Commercial*, a leading Republican organ in the West. The Cincinnati *Enquirer* thus notices the back-down:

The *Commercial* yesterday had an astonishment for its readers. This was no less than an article "backing down," or "backing out" from all its previous positions in favor of the proposed Ohio Constitutional amendment, which it now flatly opposes.

New and overpowering light has suddenly broken in upon the darkened vision of the *Commercial*. It has just discovered that the amendment disfranchises the negro. Our contemporary, although still professing a great desire to have the pleasure of walking to the polls in company with the gentleman from Africa, yet thinks that we are purchasing the negro's company rather too dearly. It is not willing to put a bar up that will prevent five white men from getting to the ballot-box in order that one negro may slip under said bar and vote. It is a question of numbers with our neighbor. It is entirely a mercantile transaction. When he thought that there was only one or two white men disfranchised for every negro enfranchised under the amendment, he was for it; but the disfranchisement of five to one he thinks is rather too strong a dose.

The word is therefore given to halt—to take the back track, and make a retrograde movement. This word is thus passed to the Radical army by our contemporary:

"Without going into further details at present, or making inquiry whether every principle of sound policy is not violated by going back now to visit military offenses with punishments which were not threatened or contemplated at the time the offense was committed—and this is a point to be seriously considered—we inquire, what will be the effect of the amendment if adopted? Are the people of Ohio ready to disfranchise five white men for every black enfranchised? Taking the census table of 1860, we find that there was then a black population of 36,683 persons in Ohio. Allowing one-sixth as the population of voters, we have 6,172, and deducting from this number one-third as having a visible admixture of African blood, and consequently voters now, there remain 4,074 who would be enfranchised. According to the Provost Marshal's books there are 24,000 Ohio soldiers still charged with desertion, who will be disfranchised under the amendment. This, then, is the practical effect of the amendment, tinkered and botched into its present shape by a Legislature either too timid to meet the suffrage question squarely, or insincere in its professions of desire to enfranchise the few blacks in Ohio. When the people come to understand the bearing of the amendment, and the injustice it will work to thousands of men who were in the army; they will put it under their feet."

A TEMPERANCE DODGE.

The Harrisburg *Telegraph* says:

"The Greene county *Republican* exultingly declares that in the most trying campaigns of the war, John W. Geary was one of the few commanders who never tasted liquor. It is, therefore easy for him to make temperance the rule of the Governor's mansion at Harrisburg."

We do not know how true the assertion may be that Geary carried nothing to screw his courage up during his campaigns at Snickersville and elsewhere; but we do remember of reading in a prominent Republican newspaper an account of his appearance at Erie during the political campaign of last fall. We were particularly struck by a paragraph describing the attitudes and utterances of this apostle of temperance before a large assemblage of Germans in a beer garden of that city. Elevated on a chair, with a glass of the foaming beverage in his sword hand, he exclaimed:

"My friends I will give you a sentiment. (Cries of hear, hear.) The Irishman likes his whiskey and the German likes his lager. That is my sentiment. *Gesundheit.*"

And the glasses clicked around, and they all shouted "Bully for der Geary."

Since the temperance agitation has begun to create much excitement, the Governor has forgotten the eloquently worded sentiment he uttered at Erie, and has "gone back on" his Irish and German friends. The truth is, Geary is the smallest kind of a humbug, and eagerly seizes upon anything of which he can make a little clap-trap notoriety. That is why he is now coming the temperance dodge.—*Lancaster Intelligencer.*

SWEEPING VICTORY FOR THE DEMOCRATIC TICKET.

BALTIMORE, May 1.—The election today, for Judge and Clerk of the new City Court, passed off quietly. The aggregate vote is smaller than was anticipated from the importance of the matter. The result is as follows: Scott and George, Conservative Democrats, 11,317: Kenly and Kennard, Radical Republicans, 4,887; Johnson and Lynch, Conservative Republicans, 1,960.

ATTEMPTED SUICIDE.—The Shippensburg *News* says that one day last week Mr. Benjamin Alleman, residing in Lurgan township, Franklin county, attempted to commit suicide by hanging himself. When found hanging in an upper apartment, it was thought life was extinct. The rope around his neck was immediately cut, and measures taken to restore life, and to the surprise of all present, he soon recovered. He is now living, but asserts that he will yet accomplish his purpose of putting an end to his life. Heretofore Mr. A. has maintained the reputation of an upright and sensible citizen, and no cause can be assigned for his present unfortunate condition.

Pardons.—According to a return made by the Attorney General of the pardons of Southern men and the persons who recommended them, it appears that the chief recommender of pardons was A. J. Hamilton, of Texas, whose name appears as an endorser of no less than 525 pardoned rebels. Next comes Gov. W. G. Brownlow, of Tennessee, who recommended 263; next, Gov. Wells, of Louisiana, 256. Gov. Murphy, of Arkansas, recommended 125; the President ordered the pardons of 121; Gov. Bramlette, of Kentucky, recommended 64; Gov. Fletcher, of Missouri, 48; Governor Bradford, of Maryland, 95; Governor Marvin, of Florida, 97, and Austin A. King, of Missouri, 55. From the report it seems that neither party can claim a monopoly of the pardon recommendations, for men of the one party have been quite as anxious to get rebels pardoned as men of the other.—*Phila. Ledger.*

An Electioneering Tour.—Several Radical Senators have got it into their heads to make an electioneering tour in the South this summer, and, we are told, they will be joined by some of their friends from the other House, who, like themselves, are anxious to inform the colored loyalists how to vote under the five monarchy bill, for delegates to conventious, &c. Two or three months ago, it will be remembered, the same men declared that the negroes were all loyal, and would be sure to vote the Radical ticket. Now there appears to be some doubt about it.—*N. Y. Express.*

THE LATEST FASHIONS.

Since the invention and successful introduction of the celebrated Duplex Elliptic (or double) Spring Hoop Skirt, by Mr. J. W. Bradley, of New York, the ladies throughout the country have given up the idea of discarding the fashion of wearing hoop skirts on account of the peculiar and graceful manner in which the Duplex Skirts adapt themselves to every exigency and emergency. So generally acceptable have these Skirts become that the ladies regard them as a special favorite, in view of the superior Flexibility, Lightness and Durability Combined in their Manufacture. They also consider them a far more Economical and Comfortable Hoop Skirt than ever has or can be made for all Crowded Assemblies, for the Promenade or House Dress. Any lady after wearing one of these Skirts will never afterwards willingly dispense with their use. Long experience in the manufacture of Hoop Skirts, has proven to the proprietors of this invention, that Single-springs will always retain that stiff, unyielding and bungling style which has ever characterized them, whereas the Double Spring Hoop or the Duplex Elliptic, will be found free from these objections. Notwithstanding the ability of the manufacturers, Messrs. Wests, Bradley & Cary, to turn out over six thousand Skirts per day from their Large Manufactories in New York, they feel obliged to request all merchants ordering the Duplex Elliptic Skirts, to send their orders a few days before they are wanted, if possible, as they are most constantly oversold some days ahead.

HOWE'S SEWING MACHINES.—About twenty years ago, Mr. Elias Howe, Jr., discovered the principle which is still the basis of all Sewing Machines; and since that time (1845,) he has been constantly engaged in perfecting his Sewing Machine, and adapting it to all kinds of work, that he is now enabled to furnish a machine that is distinguished from all others by the simplicity, beauty and durability of its stitch, and which obtained the first prize in the International Exhibition in London in 1862. The Howe Machine Company, in Bridgeport, Connecticut, has been organized to manufacture these sewing machines, under the immediate supervision of Elias Howe, Jr., the original inventor. They are adapted to the sewing of the most delicate fabric, as well as the heaviest leathern work, and the seam that is made by them never rips or ravels. There are so many uses to which this excellent piece of mechanism can be put, that it is the interest of every family and manufacturer to make use of it.

AN AGE OF IMPROVEMENT.—It will be seen by reference to Henry Thomas & Son's advertisement of Hubbards Self-raking Reaper and Mower, that this machine possesses singular advantages over all other Self-rakers. Another advantage is that it will throw oats in a swath or in sheaves. While this machine possesses these advantages over all others, the cost is very little more.

IRON ORE.—The Local of the *Hanover Spectator*, a few days since, paid a visit to the extensive iron ore mines on the farms of Mrs. Sterner and Enoch Lefever, in Germany township, this county, about 5 miles from Hanover. He says they are worked respectively by the Wrighstville Mining Company and the Ashland Company, and that the ore taken from them is very rich, yielding a large percentage of first quality iron. About 20 tons of ore per day are taken from the principal mine of the Wrightsville company, which will shortly be increased to 50 tons a day.

SUDDEN DEATH.—We learn from the *Hanover Citizen* that Mr. Andrew Lau, of Oxford township this county, died very suddenly, on Thursday week, of apoplexy. His age was about 66 years.

ACCIDENT.—A short time ago, Mr. David Brown, whilst engaged in his mill during the night, in Hamilton township, Adams county, laboring under the impression that he was in the lower story, stepped out of the outer door of the second story of the mill and fell to the ground below. He was picked up, sometime after in an insensible condition and taken to his residence, where immediate medical aid was procured. He is now doing as well as could be expected. —*Hanover Citizen.*

ANOTHER.—On Friday last, Mr. John Heisel, near East Berlin, Adams county, met with a serious accident, in his mill, whilst engaged in grinding Plaster of Paris. Whilst engaged in the lower part of the mill, a large lump of plaster fell from the hopper above, striking Mr. H., on the head, and cutting and bruising his head very severely. He is doing well.—*Ib.*

AND ANOTHER.—Mr. Frederick Lohr, of Conowago township, Adams county, last week, was engaged at chopping wood a short distance from his house, and, by some mistake, cut his foot so severely that his life was in eminent danger from excessive bleeding. He was taken to his dwelling on a horse, and through the aid of friends and the family his life was preserved. He is doing tolerable well, though the foot is very sore.—*Ib.*

The Household's Friend.

The mere fact that Radway's Ready Relief can be used for so many good purposes, is simply the reason why it can be found in almost every household. A few drops, taken in water are far superior to many people, as a beverage, to the thousand-and-one nostrum bitters thrust upon an intelligent community, which, taken too often, will surely kill. As a tonic, many prefer the Relief to the best wine-bitters. It is an agreeable stimulant, warms the stomach, tones the Liver, instantly arrests pains, and silences malarious fevers. Its medical properties are so ordained as to make it invaluable the moment one is siezed with sickness, be it Cholera or Cholera Morbus, Cholera Asphyxiia, Bilious Colic, Yellow Fever, Ship Fever, Typhoid Fever, Fever and Ague, Pneumonia, Inflamation of the Bowels, Small Pox, Dysentery, Diarrhoea, Rush of Blood to the Head, &c. This invigorant is invaluable in such cases; 30 drops in water, three or five times a day, when feelingly affected, will save health and life. In the most severe cases it is an instantaneous relief to the sufferer. Always apply nothing else to Cuts, Burns, Bruises, Sprains, Strains, Scalds, and for Rheumatism, will afford immediate relief, and consequent cure.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to the large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venerial Disease is expelled from the system by the prolonged use of this Sarsaparilla, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often soon cured by this Extract of Sarsaparilla.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn from Disordered Stomach, Pain, or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Neuralgia, and for a Dinner Pill.

They are sugar coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

SCHENCK'S SEAWEED TONIC.

This medicine, invented by Dr. J. H. SCHENCK, of Philadelphia, is intended to dissolve the food and make it into chyme, the first process of digestion. By cleansing the stomach with Schenck's Mandrake Pills, the Tonic soon restores the appetite, and food that could not be eaten before using it will be easily digested.

Consumption cannot be cured by Schenck's Pulmonic Syrup unless the stomach and liver is made healthy and the appetite restored, hence the Tonic and Pills are required in nearly every case of consumption. A half dozen bottles of the SEAWEED TONIC and three or four boxes of the MANDRAKE PILLS will cure any ordinary case of dyspepsia.

Dr. SCHENCK makes professional visits in New York, Boston, and at his principal Office in Philadelphia every week. See daily papers of each place, or his pamphlet on consumption for his days for visitation.

Please observe, when purchasing, that the two likenesses of the Doctor, one when in the last stage of Consumption, and the other as he now is, in perfect health, are on the Government stamp.

Sold by all Druggists and Dealers, price $1.50 per bottle, or $7.50 the half dozen. All letters for advice should be addressed to Dr. SCHENCK'S Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

A Young Lady

returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic flushed face, she had a soft, rosy complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. In its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. WHAT'S DOWN!—Why Coats, Pants and Vests at PICKING'S.

Brinkerhoff's

CORN SHELLER, SEPARATOR AND CLEANER.

The undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, 'We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the New York *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleanses, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

The World Astonished

AT the Wonderful Revelations made by the great Astrologist, MADAME H. A. PERRIGO. She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophies, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the maleficstars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of the above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

Reparator Capilli.

Throw away your false frizzles, your switches, your wig—
Destructive of comfort, and not worth a fig:
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI,

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given. Address,

Excelsior! Excelsior!

CHASTELLAR'S HAIR EXTERMINATOR! For removing superfluous Hair.

To the ladies especially, this invaluable depilatory recommends itself as being an almost indispensable article to female beauty, is easily applied, does not burn or injure the skin, but acts directly on the roots. It is warranted to remove superfluous hair from low foreheads, or from any part of the body, completely, totally and radically extirpating the same, leaving the skin soft, smooth and natural. This is the only article used by the French, and is the only real effectual depilatory in existence. Price 75 cents per package, sent postpaid, to any address, on receipt of an order by

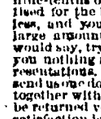
Manhood:



HOW LOST, HOW RESTORED.—Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the RADICAL CURE (without medicine) of SPERMATORRHŒA, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.

"EMAIL DE PARIS."

THE NEW

Beautifier of the Skin.

TESTIMONIALS FROM CELEBRATED LADIES.

This secret of beautifying the skin being known only to Messrs. Jared & Rene, they honorably state that it differs from all other preparations. It gives to the most harsh and freckled skin both the texture and color of polished Ivory, removing all discolorations, whether appearing as freckles, tan, morphew, moth or blackworm specks, and is especially successful in smoothing out the marks left by the smallpox.

The agents of "L'Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as

Signora RISTORI,
M'dlle FELICITA VESTVALI,
Miss MAGGIE MITCHELL,
Mrs. D. P. BOWERS,
LUCILLE WESTERN,
Madame PONISI,
Mrs. EMMA WALLER,
LUCY RUSHTON,
NOEMIE DE MARGUERITTES,
Miss A. PERRY,

and many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.

The beautiful Lucille Western says:

"I find that the 'Email' produces all the brilliancy of rouge and lily-white, with the great and peculiar advantage of total harmlessness. It really adds to the softness and beauty of the skin."

The magnificent Vestvali says:

"I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth."

Miss Maggie Mitchell says:

"I have tried the skin beautifier, 'L'Email de Paris,' and found that it instantly imparts a natural bloom and freshness to the complexion."

"Jared's Email de Paris" is used as a delicate beautifier of the skin for Theatre, Saloon or Ball Room, by the most refined and scrupulous ladies, producing all the beautifying effects of rouge and lily-white, without their vulgar glare or injury to the skin.

Horse and Cattle Powders.
